AVIATION SOLUTIONS**

QUALITY SERVICES | SAFETY | COMFORT

OUR VISION

To be amongst the leading providers of customized aviation solutions worldwide.

OUR MISSION

To provide quality aviation services, while adhering to the highest certification, safety, and security standards.

OUR VALUES

- Excellence:** We are driven by our desire to excel and be the best in everything that we do.
- Safety:** We are committed to adopting and maintaining practices that promote the safety and security of our customers, staff and equipment.
- Integrity:** We strive for fairness, honesty and accountability in all our business and working relationships.
- Teamwork:** We pride ourselves on our culture of teamwork that allows us to work together and support one another to deliver customized solutions to our clients.
- Training:** We continuously invest in training as we believe this is key to maintaining and establishing high standards of performance.

ABOUT ALS

ALS started operations in 1985 with One Cessna C-150 which was initially leased out to a flying school; and over the years has seen steady growth ever since. Today, as an industry leader, ALS offers a range of customized and comprehensive aviation solutions for the benefit of Humanitarian Operations, Airlines, Oil/ Resource exploration, and VIP Clientele.

Our team comprises of professional, qualified, and experienced staff committed to providing an unparalleled aviation service. We are proud to have successfully passed audits by globally recognized organizations which include:-

- United Nations World Food Programme (UNWFP)
- International Committee of the Red Cross (ICRC)
- Mediciens Sans Frontieres (MSF)
- RwandAir
- Woodside Energy
- Africa Oil
- Tullow Oil
- Anadarko
- Total

SUBSIDIARY AND ASSOCIATED COMPANIES

- Heliservices, a subsidiary company specializing in helicopter operations.
- Scenic Air Safaris, an associated company providing exclusive VIP/executive charter operations.

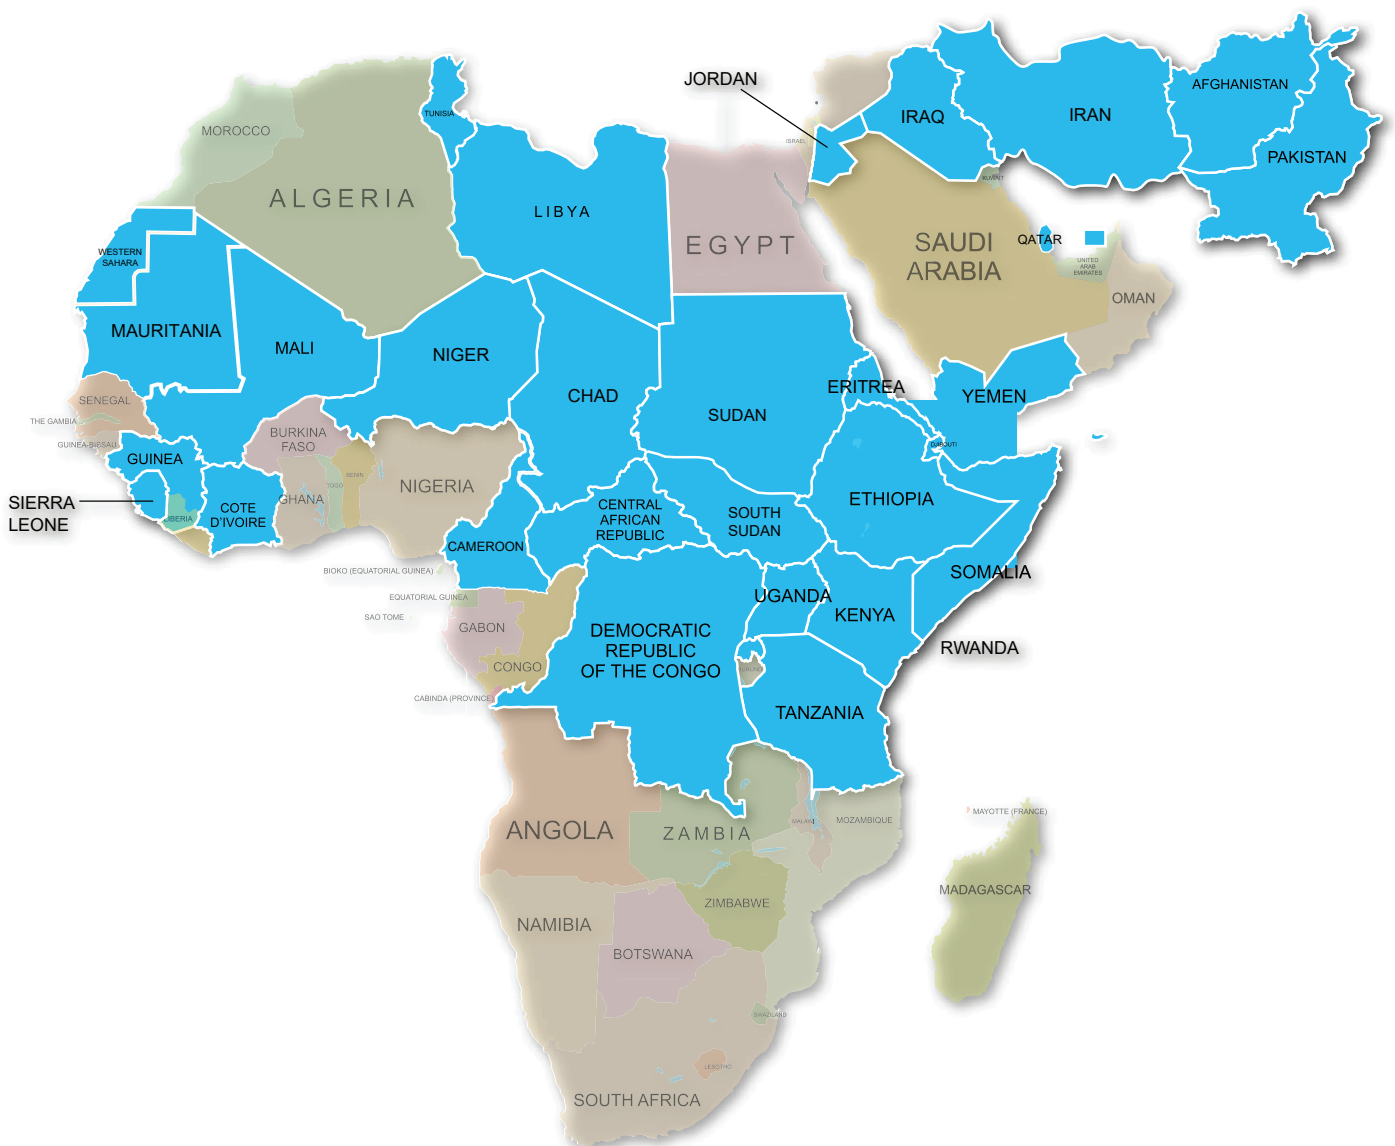

<http://www.scenicairsafaris.com/>

OUR SERVICES

- ACMI Leases (Aircraft, Crew, Maintenance and Insurance)
- Tourism Charters
- Ambulance/Evacuation Flights
- Humanitarian Air Charters
- Corporate Charters
- Scheduled Flights
- Executive and VIP Charters
- Aircraft Maintenance
- Engineering Consulting

AREAS OF OPERATION

OUR FLEET

ALS initially started operations with One Cessna-150; and over the years has seen steady growth. We are proud to operate a fleet of over 20 aircraft namely:

EMBRAER 145

The ERJ-145 is Embraer's 50-passenger regional jet airliner and can fly at a maximum speed of 833km/h. The range and service ceiling of the jet is 3,704km and 11,275m respectively. The long range ERJ-145LR aircraft is equipped with Rolls Royce AE 3007A1 engines which provide 15% more power. The engines are flat rated at 33.1kN to provide improved climb characteristics and improved cruise performance in high ambient temperatures.

E145LR The long-range ERJ 145LR aircraft is equipped with Rolls Royce AE 3007A1 engines which provide 15% more power. The engines are flat rated at 33.1 kN (7,440 lb) thrust to provide improved climb characteristics and improved cruise performance in high ambient temperatures.

EMBRAER 135

The ERJ-135 is a 3,148km range, 37-passenger airliner and a member of the Embraer Regional Jet series. The cabin and baggage compartments are air-conditioned and pressurized by a Hamilton Sundstrand air-conditioning system and Liebherr Aerospace pressurization system. The ERJ-135ER aircraft has Rolls-Royce AE 3007A engines rated at 31.3kN and the long range ERJ-135LR aircraft is equipped with Rolls-Royce AE 3007A1 engines, which provide 15% more power. The engines are flat rated at 33.1kN to provide improved climb characteristics and improved cruise performance in high ambient temperatures.

Dash 8-100/200/300

DeHavilland Dash 8(DHC-8), is a twin-engined, medium range, turbo-prop airliner with a seating capacity of 37. The aircraft is safe, comfortable for travel, with enhanced cabin comfort, reasonable legroom space, proper seating, and headrest. It is capable of outstanding take-off and landing performance even on unprepared airstrips and good cruise performance. "The Dash 8 has proven itself to be the most popular player in the regional turboprop airliner market"

BEECHCRAFT 1900

The Beechcraft 1900 is a pressurized 19 seat twin-engine turboprop air plane with a combination of passenger and cargo configuration. The 1900 provides passengers with an airline-style seating, including recline, armrests, tray tables and under seat storage. The aircraft is designed to carry passengers in all weather conditions airports with relatively short runways.

CESSNA C208

The Cessna Caravan aircraft is a 12 passenger capacity aircraft and is known for its rugged utility and flexibility. With its powerful turboprop engine, the Caravan delivers the rare combination of high performance, low operating costs and the ability to adapt to a wide variety of missions. The aircraft is powered by a Pratt & Whitney PT6-114A turbo-prop engine.

CONTRACT FLYING

ACMI (Aircraft, Crew, Maintenance, Insurance) Contracts

ALS provides aircraft with crew, and maintenance support for operations globally such as for:

- Humanitarian: We support relief/emergency activities by providing short/long term leases as well as urgent go-now requirements.

OUR CLIENTELE

- UNWFP: Embraer 145, Embraer 135, Dash 8-100, Beechcraft 1900 in Sudan, Niger, Uganda, Chad, Democratic Republic of Congo, Cameroon, Central African Republic, Somalia and Somaliland.
- International Committee of the Red Cross (ICRC): Dash 8-100, Beechcraft 1900 and King Air in Somalia, Democratic Republic of Congo, Djibouti, and Niger.
- United Nations Support Office in Somalia (UNSOS): Dash 8-100 in Somalia
- United Nations Mission in South Sudan (UNMISS): Embraer 145 in South Sudan
- United Nations interim Security Force for Abyei (UNISFA): Beechcraft 1900 in Sudan
- United Nations Organization Stabilization Mission in the Democratic Republic of the Congo MONUSCO: Embraer 145 in Democratic Republic of Congo
- United Nations Support Mission in Libya (UNSMIL): Dash 8-100 in Tunisia
- United Nations Mission for the Referendum in Western Sahara (MINURSO): Dash 8-100 in Western Sahara Embraer 145 and B1900D in the Democratic Republic of Congo
- UNHCR - Embraer 145, Dash 8-100, Beechcraft 1900 in Democratic Republic of Congo, Uganda, Sudan and providing access to refugee camps in Northern Kenya as well as voluntary repatriation of refugees from Kenya to Somalia and Burundi
- Kenya Airways - Boeing 737-200QC for five years for their regional network and operated on an interlink service to Lokichoggio on partnership.
- Kenya Airways - Providing an Embraer 145LR on wet lease for scheduled flights.
- Rwandair : Dash 8-100 operating domestic scheduled flights in Rwanda
- Safarilink - Cessna 208 and Beechcraft 1900 in Kenya and Tanzania
- DHL Worldwide Express- Cessna Caravan, Kingairs and Beechcraft 1900 in Eastern Africa
- Woodside Energy (Kenya) Pty Ltd – Provided fixed wing flight services for their oil drilling operations off the Kenyan coast using one Dash-8 and one Beech 1900.
- Qatari Diar Vinci Construction (QDVC) - Beechcraft 1900 in Qatar and Eritrea
- Air Mauritius - Twin Otter in Comoros Islands

TOURISM AND VIP CHARTERS

We provide exclusive and tailor-made charter services for clients looking for private, unique and specialized experiences.

Bill Gates

Angelina Jolie

George Clooney

SCHEDULED FLIGHTS

As of December of 2018 ALS partnered with Kenya Airways to operate scheduled daily flights between Nairobi and Mogadishu, Somalia.

Our professional flight crew

SAFETY

The company subscribes to the highest certification standards for the UN, ICRC, WFP and Oil Companies in keeping with the variety of services offered.

In order to prevent accidents and to reduce their potential for damage or injury, ALS maintains an active integrated safety management system based on international standards as laid out by ICAO.

The company actively encourages hazard and incident reporting; Risk Assesses the findings and develops mitigation action and strives for continuous improvement.

All the Company staff is given training in safety management systems.

QUALITY ASSURANCE

ALS Quality Assurance Department primarily exists to monitor all of ALS continuing airworthiness management, Flight Operations, Maintenance and Engineering AOC and ensures that both the AOC and AMO maintain the highest standards and complies with all regulatory requirements.

The compliance monitoring is conducted by a dedicated, talented, skilled, qualified and related knowledge and experience professional team of auditors who continuously monitor the effectiveness of the Flight Operations and Maintenance processes and procedures to ensure that all approved procedures and regulatory requirements are met. This is to comply with our "Do it right the first time" motto.

The Quality Assurance Department also manages and supports the organization in the following activities:

1. Issuance of Certifying Staff Authorizations
2. Issuance of Flight Dispatcher Authorizations
3. Acquisition and inclusion of new aircraft

The Quality Assurance is managed by the following KCAA approved post holders:

- a. The Director of Quality Assurance
- b. The Head of Quality

FLIGHT OPERATIONS

In ALS, responsibility for making its operations safer lies with each of its employees – from managers to front-line staff. Each is responsible for implementing safety within the scope of the safety management system. All staff are accountable to ensure that all reasonable steps are taken to prevent accidents and incidents.

FLIGHT FOLLOWING

ALS makes significant investments in staff training and state of the art systems such as Satellite Tracking. This enables real time operational control of the entire fleet. The impact of satellite tracking in aviation has been significant and has brought a new dimension to operating aircraft.

The position-reporting capability removes the “Search” from “Search and Rescue”. The unit is equipped with an Alert Button, which, when deployed, will immediately send the aircraft’s position and emergency situation to the concerned parties. In addition the system transmits periodic messages containing time, longitude; latitude, speed, altitude and bearing, and these can be customized to report at intervals of 1 minute or more.

Notification of events such as Master On, Engine On, Blocks Off, Takeoff, Landing, Blocks On, Engine Off, Master Off, Low Battery, Hard-Landing and Excess-G - all with to-the-second precision is recorded.

AIRCRAFT MAINTENANCE, ENGINEERING AND CONSULTING

ALS has one of the most modern maintenance hangers at Wilson Airport (Nairobi) that offers major and minor aircraft maintenance including fully equipped and functional workshops. Our state of the art facility; combined with a team of highly skilled engineers enables us to carry out all kinds of scheduled and unscheduled maintenance on certain aircraft.

SERVICES INCLUDE:

- C- Check capability
- Phase inspections on ERJ135LR, Dash 8, BE1900, BE200 and C208
- Hot section inspection (HSI) on PT6A series engines
- Airframe major and minor repairs.
- Aircraft painting
- Aircraft restoration

ORLY AIRPARK

Our Chairman, Captain Aslam Khan, is a well known aviator in Kenya and within the region. Aslam and other active members from the Aero Club of East Africa invested in a 240-acre piece of prime land located some 50 km away from Wilson Airport. The land is situated off Kiserian-Isinya Road in Kajiado.

The land was acquired with the aim of reducing air traffic congestion within Wilson Airport, Nairobi Kenya, and offers safer vicinity for sport aviation enthusiasts, skydivers, micro - light and gyro copter operators, as well as for flight training. This development is known as Orly Airpark. Currently the infrastructure accommodates fifteen hangars, seven high standard cottages owed by members, and an airport lounge. There are two runways, one which is partly paved and the second runway is a well maintained grass runway. Aslam has been a driving force behind this project which promises to raise the standards of aviation within Kenya and create job opportunities in the area.

SOCIAL CORPORATE RESPONSIBILITY

In the past ALS helicopters have been provided during motor sports activities such as the East African Classic Safari Rally for medical evacuations.

The company has also co-sponsored the Kenya National Rally championship (KNRC) by providing free medical evacuation services using helicopters.

ALS also has its own rally team and our Chairman and other staff are keen participants.
